

MEDC Public Policy - Mission and Purpose

Missouri Economic Development Council (MEDC) is meant to serve as an authoritative voice in Missouri by advocating for public policy that strengthens each member's ability to serve their communities.

For the 2024 Fiscal Year, MEDC's Public Policy Committee has designated a Public Policy Platform that guides our policy agenda on a long term basis. Each year, our organization can focus on expanding, amending, or creating programs that bring value to one of the **MEDC Pillars of Public Policy**.

2024 PRIORITIES

- Support the creation of an Annual Industrial Site Development Grant Program of \$75 million.
- Support the sustained financial viability of Missouri's core economic development programs.
- Support passage of the Child Care and Railroad Tax Credits.
- Proactively monitor Chapter 100/TIF/CID, which includes supporting positive changes to these programs if legislation is introduced.

MULTI-YEAR PROGRAMS

Workforce Housing Program | 2025

- Support the introduction of a Workforce Housing Program
- Draft Legislation and begin educating Legislators

Investment Incentive Program | 2025

- Support the introduction of a Investment Incentive Program
- Draft guidelines to incentivize investment in equipment and productivity
